

# Ready, Set, Grow!

## Grades 1 - 4

---

### Introduction

Investigate the growth requirements of plants and compare their growth in different conditions through your own experiment and research!

### Materials

- Permanent marker
- Two (or more) identical containers for growing (6 is optimal) can be: plant pots, yogurt containers, disposable cups
- Several seeds, sprouts, or mature plant parts to regrow
- A growing media (your choice of soil, peat moss, sphagnum moss, or sand)
- Small shovel or trowel for digging
- Water source (tap water or rainwater collection)
- Measuring cup
- Ruler (optional if you want to measure plant growth)
