

## **DCI TO SUPPORT SCIENCE CURRICULUM FOR NETWORK OF GLOBAL PRIVATE SCHOOLS**

Discovery Centre International based in Halifax, Nova Scotia has joined forces with Maple Bear Global Schools to support science curriculum for their international network of 570 schools in 31 countries worldwide. As one of the fastest-growing educational brands in the world, Maple Bear will also support Discovery Centre International's franchise expansion plans.

"The international franchise and curriculum expansion goals of Maple Bear Global Schools and Discovery Centre International are very well aligned. This amazing new partnership will accelerate the implementation of our shared plans to open a significant number of franchise locations while also developing STEAM education programs and exhibits globally," says Dov Bercovici, President Discovery Centre International.

Maple Bear Global Schools is a world leader in bilingual education, offering high quality infant care, preschool, kindergarten, elementary and secondary education, based on practices that place Canadian education among the highest regarded in the world.

"Maple Bear Global Schools is very pleased to be partnering with Discovery Centre International to offer cutting edge science curriculum for our 44,000 students around the globe. Our purpose is to share the very best of Canadian education with the world and through this new partnership, we know that our students will become passionate about all aspects of scientific experiments and discovery," added Arno Krug Junior, CEO Maple Bear Global Schools.

Building on the success of Halifax's Discovery Centre facility, programming, and network of partners in the science community, the agreement will come to life with the deployment of a customized science program in existing and future Maple Bear Schools. In addition, the curation of summer camp programs will see students travelling from Maple Bear's international locations to experience the wonders of the Discovery Centre first-hand with the intention of creating interest in post secondary education in Nova Scotia.
